Thank you for partaking in this ministry. It is greatly appreciated! If you see that anything needs changing or an area where we could do things better, please let me know.

Please keep up the good work of being that friendly face to all who may come in our doors. This little act of hospitality helps people to really experience the love and communion of God in their lives. For others, it invites people back to church!

Don't forget to call a sub if you need one or call the office if you can't get anyone to help in your spot.
